**Built For The Future**

## Innovative Design

New patented framing system features one foot shelving adjustable in 1/2" vertical increments. High Profile can adjust vertically in 3" increments. Seamless flow of shelving and signage without gap or alignment issues.

## Customize To Your Needs

You'll find a wide variety of pushers, trays, locking storage drawers, security doors and other popular merchandising accessories allowing you to customize to your needs. Headers and shelves include bottom channels for attachment of signage.

## Adjustable Header Signage

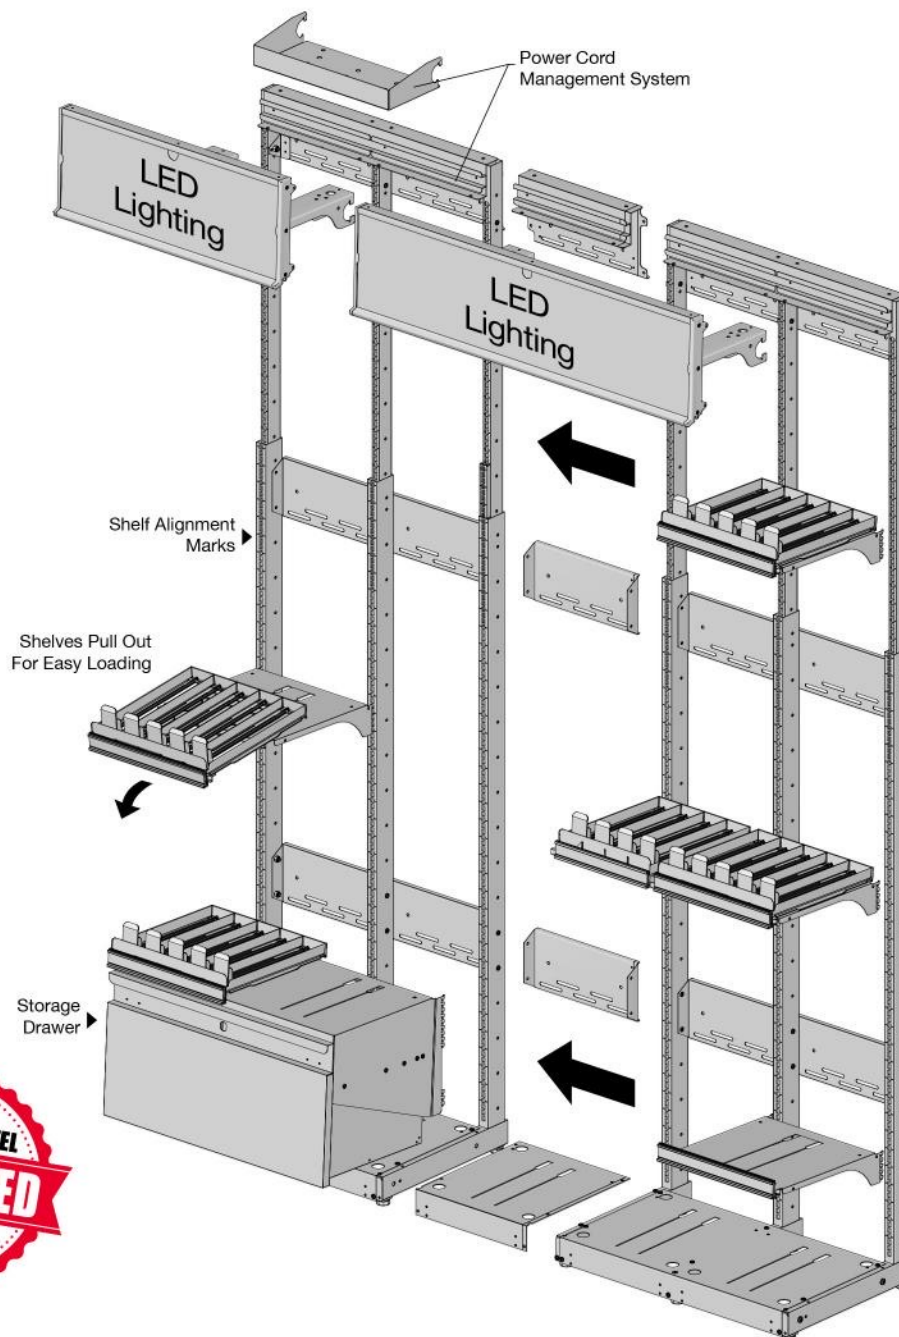

Adjustable LED sign allows for added row of highly visible product facings. Optional Flip-Up Header provides storage space behind sign.

## Impactful Presence

Perfectly aligned shelving and signage across the entire display. Headers feature LED illumination and dedicated down-lighting, which is 25% brighter than other signage.

## Resets Made Easy

Minimize the amount of work with reconfigurations. Designed to assemble and secure the frame once and not with every reset. Reset only your products and not your display.
